

What is a Bubble Party?

Since you have been to our website you already have a general idea of what a Bubble Party is all about. This PDF will go more in depth about the specifics of what a Bubble Party really is and how we do them.

We bring 1 or 2 professional bubble machines, each capable of putting out 100's or maybe 1000's of bubbles per minute. We also supply the sound system for the event. During the event – which averages 60 minutes – we play age appropriate music and games. We have a standard program for ages 4 – 7, but can customize a play list for your individual events.

We play our music on a combination of computer and an mp3 player as needed. We lead the children through about 15 – 20 kid friendly songs and games. We mix it up with about 5 "Bubble Songs" We do a Limbo dance. We play a game I call "Who's That"?

Kids enjoy that game as it revolves around Sponge Bob. We bring lots of Hula Hoops.

A Bubble Party works best, in our opinion in groups of 15 to 30 kids. We recognize that a child's attention span is short, so we start something new every 2 – 5 minutes. They don't have time to get bored. And it gets the kids moving! There is a lot of interactivity at a Bubble Party.

Bubble Parties work best when we have several adults around to help supervise and encourage the children. In fact, we encourage the adults to become active participants in the event – the more, the merrier!

Typical songs that might be played at your party include:

1. We Will Rock You
2. Cotton Eyed Joe
3. Head, Shoulders, Knees and Toes
4. Let's Get it Started (Black Eyed Peas.... Clean Version)
5. Mambo #5 (Disney Version)
6. Who Let the Dogs Out?
7. Various Kids show Theme Songs
8. Limbo Rock
9. I Like to Move It (from Madagascar)
10. All Star (from Shrek)

Generally the guests are 4 – 8 years old. We can extend that to about 10 years old by changing the music. We can vary the length of a party to suit your needs. We prefer to do all of our parties outside to minimize cleanup. These events are usually basic backyard type events, done with professional sound equipment, but NOT the same equipment that we do weddings and corporate events with. That can be arranged, if needed, at an additional charge.

We even bring small prizes for the kids to "win", though every child will leave with a prize. If you want to supply additional gifts, we are happy to work with you on this.

Total time from set up to break down is about 2 hours. The Bubble Party, as stated, is approximately 60 minutes, and can be dependant upon several factors. If the actual "Bubble Party" ever goes less than 60 minutes, we can improvise to fill out the time.

Kids Love Bubbles. Kids Love to Sing and Dance. Kids Love to Play Games.

Kids Love Bubble Parties!
